

Letters to the Editor for July 29, 2021

Dear David,

To the many Concerned Citizens of Montauk supporters who contributed to our very successful event at Gurney's in Montauk on July 21, thank you.

This was the first time we were able to meet in person with the larger Montauk community in nearly 18 months. It was an incredible opportunity to reconnect, reunite, and re-engage. Montauk faces several large and complex environmental challenges, and we need all hands on deck to protect our waters and beaches and ensure Montauk's environmental sustainability.

Whether it's our bacteria, harmful algal blooms, or pollution-source tracking programs, or our efforts to finally bring effective wastewater treatment to downtown Montauk or ensuring our beaches, dunes, and wetlands can survive in the wake of climate change and sea level rise, this work requires an engaged community willing to get involved.

I encourage anyone who missed the event and wants to hear more and get involved to visit our website preservemontauk.org, give us a call at 631-238-5720 or email info@preservemontauk.org. There are plenty of upcoming opportunities to participate, and we'd love to meet you!

Together, we can protect and preserve Montauk.

Sincerely,

LAURA TOOMAN
President CCOM
